

Alexandr Melnic

Full Stack Web Developer < MERN Tech Stack />

- Highly motivated and curious. (In my previous Job position, was fast promoted and assigned special tasks), - Well structured and a good team player. (our team won 2nd place at our local Hackathon for the project structure and good timing) - Experienced and fast Google Searcher. (always found a suitable solution for my problem)

WORK EXPERIENCE

Procurement Contract Specialist

Camargo Corrêa

Jan / 2007 - Apr / 2012 São Paulo e Região, Brasil
Achievements / Tasks

- During 5 years of work on this Brazilian multinational company, I was involved in 3 major projects: 2010 to 2012 – International Expediter Lead and Contract Management Project: RNEST (Energy Transmission line Construction) Client: PETROBRAS Highlight: RNEST Project became the most modern refinery that Petrobras ever built, RNEST will also be the 5th largest unit in refining capacity (230,000 barrels per day - bpd). I worked for 3 years in this project as the International Expediter Lead, performing monthly expediting visits at supplier shops all around the world in order to ensure the contract terms. Oil & Gas 2009 to 2010 – Procurement Coordinator Project: UÍGE (Energy Transmission line Construction) Client: ANGOLA GOVERNMENT Infrastructure 2007 to 2009 – Procurement Analyst Project: ALUMAR (Alluminium Refinery Expansion) Client: ALCOA Light Metals see less

PROJECTS

UFN3 Petrobras Project

Project description UFN III Project consists in a Nitrogen Fertilizing Plant construction, in Três Lagoas City, MT, Brazil. This Project target was to improve production of Ammonia and Ureia to be used mainly for Agriculture purposes. My main role on this project was to coordinate the expediting and inspection team inside Procurement department.

RNEST Petrobras Project

Project description RNEST Project became the most modern refinery that Petrobras ever built, RNEST will also be the 5th largest unit in refining capacity (230,000 barrels per day - bpd). I collaborated in this project as the International Expediter Lead, performing monthly expediting visits at supplier shops all around the world in order to ensure the contract terms.

Uige - Maquela do Zombo

Project description This project was a construction of a energy transmission line of 200km between cities Uige and Maquela do Zombo in Angola. According to a agreement with BNDES all equipments and materials were exported by brazilian suppliers. My main role on this project was to expedite and inspect equipments and materials before shipping to Angola.

Alumar - ALREFU2 - Alumina Refinery Expansion II

Project description ALREFU2 is an plant expansion of existing Alumar refinery in São Luis do Maranhão. This USD 3,0 Billions CAPEX project was a complex design made in two different countries (Brazil and Australia) using different system tools such as PDS, SmartPlant Instrumentation , SmartPlant Materials and I-sketch.
