WORK EXPERIENCE

Frontend Developer
ClearView Trade

Jan / 2014 - May / 2015   *City, Country*
Achivements / Tasks

- ClearView Trade is an online service that enables EU and cross border trading enterprises to eliminate their historic paper based administrative costs and inefficiencies and turns the trade into a Paperless Trade Documentation collaborative process. ClearView Trade manages the International cross border trade documentation process and assists EU and International traders to comply to EU customs procedures demanding paperless trade submissions on cross border trades. ClearView Trade creates quality trade data transparency and visibility across the physical and financial supply chain for the cross border traders and the supporting actors in the supply chain supporting the trader in finance insurance and logistics services.
